

## Sable Hills Security

### Access Control and Visitor Management Systems

#### Access Control

- ❖ Access to the estate at the Main Gate & Contractors Gate and Hostel areas is restricted for
  - Residents
  - Staff
  - Visitors
  - Contractors
- ❖ All persons entering the estate to be tagged or announced so as to minimize potential security threats
- ❖ Access is 'time' based. Access will expire at pre-determined times
- ❖ Access is by means of biometric reader or pre-programmed electronic card or PIN or combination of any.

Please check with the Security Office personnel for additional information (**Charlene-**

**0105940492**). Reports available to monitor and reference

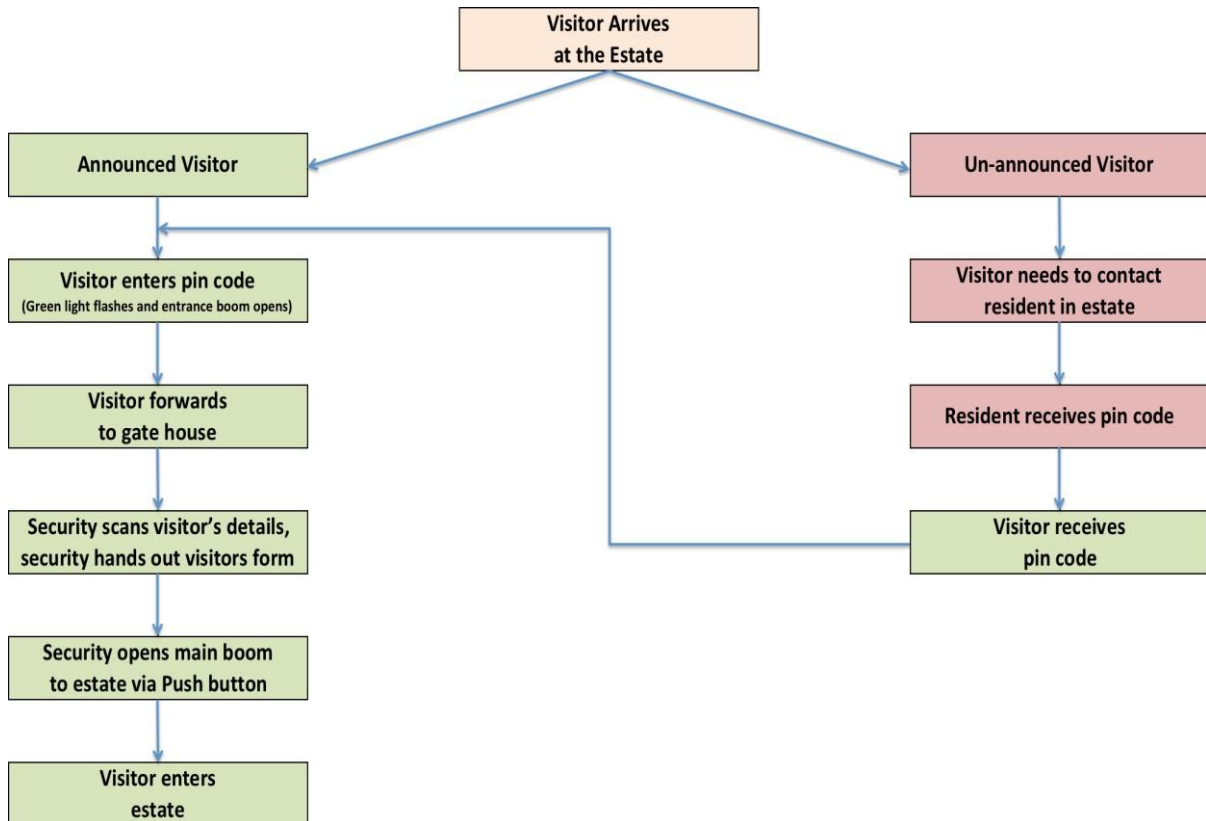

### Visitor Management System

Cellular network-based multi-unit intercom system that allows convenient screening of visitors at the entrance. Mobile phone or fixed line telephone doubles as an intercom handset and can receive calls from the gate station.

- ❖ Time-based access control (codes expire daily at 00h00)
- ❖ Residents to get & pass PIN codes to visitors – know who may be on the way.
- ❖ Exit is also by similar PIN code entry at the exit lane. (PIN entered by Security, provided by Visitor)
- ❖ Residents have control and visibility on visitors accessing the site
- ❖ Appointed Security will facilitate process, but entry / exit is responsibility of Residents
- ❖ Residents to SMS Visitor Management System for codes
- ❖ SMS – **079 706 5888** with message "TAP n"
  - n = number of independent visitors expected to arrive at the gate for entry (eg, no of vehicles)
- ❖ Visitor Management system will issue 5 digit PIN codes
  - "aaaaa" – entry PIN ○ "bbbbb" – exit PIN
- ❖ Visitor to use entry PIN at main gate visitor entry – first boom
- ❖ Exit PIN to be provided to Security at Main Gate Guard House on exit

## Sable Hills Security Visitor Management System

- ❖ Security will enter PIN on keypad to open exit boom.
- ❖ All PIN codes expire at midnight. Residents to get new codes if visitors leaving after midnight.
- ❖
